

In 1998, we developed the first Real Time PAIN RELIEF formula that was designed specifically for athletes. Over time, people started using Real Time PAIN RELIEF for Arthritis, Back Pain, Muscle Strains, and many more off-label uses. Over the last 15 plus years we have released a number of products targeted to the specific needs of our growing customer base, each of which we will explain below:

Real Time PAIN RELIEF

Real Time PAIN RELIEF is an FDA registered OTC, pain relief product. Real Time PAIN RELIEF was our original product that introduced the concept of “**Ingredient Based Therapy**”.

There are two key aspects that make Ingredient Based Therapy unique:

1. Using a low level of Menthol due to the fact that there is a growing amount of scientific evidence that suggests high levels of menthol can cause a buildup in Substance P in joints and throughout the body, resulting in chronic pain. We consider anything over 1.5% menthol to be a high level, therefore Real Time PAIN RELIEF uses only 1% Menthol. **To discover the Role Substance “P” Plays in the Body, ([Click Here](#))**
2. Real Time PAIN RELIEF contains a proprietary blend of 19 natural and herbal ingredients. Many of the Natural and Herbal Ingredients used in Real Time PAIN RELIEF have been used for thousands of years, like Aloe Vera, Arnica, Capsicum, Chondroitin, Emu Oil, Glucosamine, Menthol, MSM and more.

It has been found to be extremely effective for acute and chronic pain including Simple Backache, Muscle Strains, Sprains, Bruises, Cramps and over 100 types of Arthritis.

Drug Facts	
Active Ingredient	Purpose
Menthol 1.0%	Topical analgesic

**Real Time Products Provide...
Safe, Effective, Fast Acting Pain Relief**

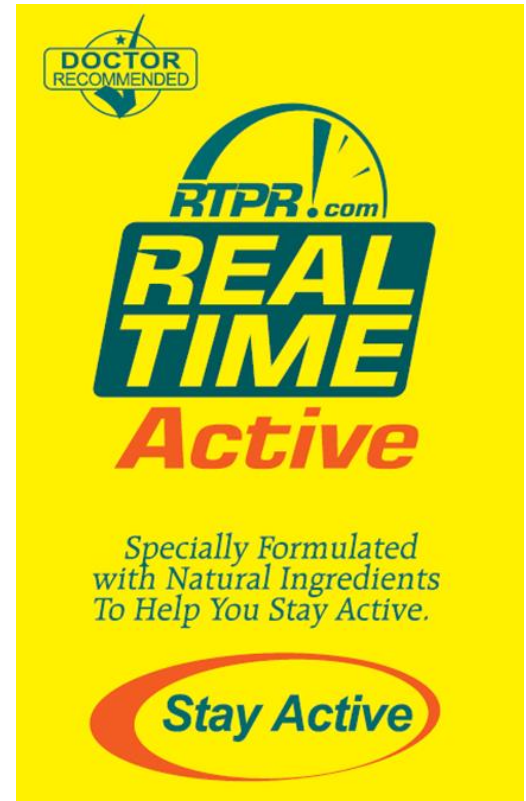

Real Time ACTIVE - (Specifically formulated for athletes)

Real Time ACTIVE ingredients are identical to Real Time PAIN RELIEF with one exception. We have reduced the level of menthol in Real Time ACTIVE. The lower menthol content is better for athletes for two reasons:

1. To Prevent Pain Masking during workouts. It is no secret that most topical sports creams use extremely high levels of menthol in order to mask your pain. The problem is that when pain is masked, it can easily allow you do more damage without knowing and this can lead to long-term physical problems.
2. There is a growing amount of scientific evidence that suggests high levels of menthol can cause a build up in Substance P in joints and throughout the body, resulting in chronic pain. Due to the amount of applications that athletes use, we have reduced the menthol to about half of the 1% we use in Real Time PAIN RELIEF. **To discover the Role Substance “P” Plays in the Body, ([Click Here](#))**

Real Time ACTIVE is made with the same High Quality Ingredients as Real Time PAIN Relief...

**Real Time ACTIVE can be used BEFORE,
DURING and AFTER your Workout!**

Real Time SKIN RESCUE - (Gentle yet Powerful)

Real Time SKIN RESCUE is more than a skin ointment, it provides gentle but powerful skin nourishment. Gentle enough to soothe and protect tender, painful damage...yet powerful enough to nourish and revitalize old scars.

Try On: Cuts, Burns, Rashes, Cracked Skin, Dry Cuticles, After Shave Irritation and Bug Bites.

Ingredients: Real Time SKIN RESCUE is Made with highly concentrated, organic Aloe Vera, Carrot Seed Oil, and Emu Oil.

Real Time FOOT CREAM (Specifically Formulated for Needs of Diabetics)

Real Time FOOT CREAM is a pain relief cream that includes 1.5% menthol, which is higher than Real Time PAIN RELIEF because the skin on the foot is much thicker than other areas of the body and extra menthol is required to get the same relief.

Even when treating pain underneath the thick skin of the feet we are still committed to using 1.5% or less menthol threshold. We believe that any higher concentrations can endanger your long-term health.

Many find that the thick formulation and hydrating consistency is able to help quench dry and cracked feet while it relieves chronic foot pains!

Real Time FOOT CREAM is Made with the Highest Quality: Tea tree Oil, Emu Oil, Eucalyptus, Menthol, Aloe Vera and more help to assist in the daily comfort of the foot.

It can take just One Application to feel amazing results when used as part of a Daily Routine to Maintain Healthy Feet....Stay on Your Feet with Real Time FOOT CREAM

TESTED & PROVEN

Formulated specifically for the needs of diabetics.

Topical Analgesic Cream

Eucalyptus Oil • Emu Oil • Tea Tree Oil • Willow Bark
