

The definition of Active Income is the Income generated through the Active effort you place into your RTPR Vendor business. Examples of Active Income generation for your business include, but are not limited to:

- ✓ **Earning a Profit** selling Real Time Products at local events in your area
- ✓ **Earning a Profit** selling Real Time Products at large events in your area
- ✓ **Earning a Profit** selling Real Time Products to friends and family
- ✓ **Earning a Profit** selling Real Time Products to people you interact with in the normal course of your day: we call this “Flow of Life Marketing”

Traditional Business Principles are a Foundational Active Income Earnings Tool

This principle is what separates RTPR from the other home business opportunities. Most RTPR Vendors make hundreds of dollars their first month selling Real Time Products, without ever recruiting another person. With our proven strategies, many RTPR Vendors earn thousands of dollars per month vending Real Time Pain Relief in their LOCAL markets. For this very reason, many people who have lost money for years in other home businesses are finding success and profitability with RTPR.

The RTPR Vendor Program offers the best opportunity for Active Income in the home business industry. Here is why:

- **Event Marketing** – virtually all other product driven home businesses are either party companies or door-to-door sales. While these are valid methods to sell product, they pale in comparison to the power of event marketing. With event marketing, you don’t have to find someone to host a party; you can simply find an event in your local area. Using this strategy, you can introduce your product to hundreds, (even thousands) of people a day versus a handful at a party or going door to door.
- **100% Mark-up** – RTPR allows vendors the best margins in the home-business Industry. We don’t sell our product to vendors at an inflated price just to support a compensation plan. RTPR Vendors are able to purchase Real Time Products for half of Retail price. Vendors enjoy the opportunity to “*Buy at Wholesale, Sell at Retail and Keep the Profits.*” For example: Buy for \$10, sell for \$20 and put \$10 profit in your pocket. It doesn’t get any easier than that.
- **Competitive Price Points** – RTPR offers a full range of products ranging from \$1.50 to \$30.00. All are at fair market retail value, not inflated prices just because there is an opportunity associated with it.
- **Sample-to-Sell** – Real Time Pain Relief works in minutes. This means that you can have people apply a sample at an event and they will feel the effects and be ready to buy before they leave the event. Bottom line - if you can sample Real Time Pain Relief, you can sell it.

Active Income is Your Foundational Business Building Tool

Making hundreds of dollars a month at events is great, many vendors even make multiple thousands of dollars each month at events. However, the greatest value in event marketing for vendors who want to generate life-changing income is that event marketing naturally builds the three aspects of your business simultaneously, which can create significant, sustainable long-term income:

- **Passive Income** – You will learn how to get your customers and potential customer’s email addresses to add to your turn-key Online Database Marketing program (that is provided to all vendors at no cost). This will help you to generate significant Passive Income
- **Team Building** – At events, people experience the effectiveness of Real Time products and/or see the success you are having and will ask to get involved in the business. Your team will grow Naturally and Organically!
- **Equity Builder Program** – The owners of RTPR have created an opportunity for Vendors who are building Real Time into one of the Nation’s leading topical pain relief products to earn an Equity Stake in the company. Vendors who share our vision, values and put forth the effort will earn equity stake in Real Time through the normal course of their RTPR business activity.

How to Start Your Vending Business

Buy at Wholesale, Sell at Retail and Keep the Profits!

The RTPR Vendor Program has always been and always will be "Product Driven." The goal of the program is for Vendors to buy Real Time Pain Relief (at a true wholesale price) and sell it (at a true retail) in their local markets. The process is very simple and basic:

Vending with RTPR allows you to buy at 50% of the retail price in order to generate a 100% Mark-up. This creates "Cash in Your Pocket" each time you sell Real Time Pain Relief.

It All Starts Locally...

RTPR grew into a multimillion-dollar company simply by connecting with people who live in chronic pain and offering them samples of Real Time Pain Relief. This Sample-to-Sell method continues to work, because our product is so effective that people not only buy it, they also tell others about Real Time Pain Relief... and many customers even ask to become vendors too.

Your business will also grow proportionately to the quality of Real Time Pain Relief sampling you do. The most effective sampling is when people apply Real Time Pain Relief and immediately experience results. As an RTPR Vendor, you have many amazing business strategies to take advantage of, including the fact that:

1. Everyone knows dozens of co-workers, friends and family members that suffer from chronic pain and need Real Time Pain Relief to help them "Enjoy Living Again."
2. A major part of your Active Income with RTPR is generated at low-cost events such as Flea Markets, Farmers Markets, Fairs, and Festivals.

The bottom line is that the most successful vendors find the least expensive ways to connect with more people and when they lead with the product, their customers and sales organization grows Naturally and Organically. This provides them with a solid foundation for a highly profitable, highly sustainable and ever expanding RTPR Business that turns their Active Income into Passive Income. The best part is that you can experience the same dynamic growth in your business.

Remember, you don't have to be an experienced sales person to make really good money, selling Real Time Pain Relief. If you can give out samples, you can sell Real Time Pain Relief!

Active RTPR Vendors make hundreds of dollars selling Real Time Pain Relief. With our proven strategies, many RTPR Vendors earn thousands of dollars per month vending Real Time Pain Relief right in their LOCAL markets, and you can too!
